Course in Wound Closure and Suturing

Course Code: 21897VIC

Target Group:

The Course in Wound Closure and Suturing is a short course designed to develop the knowledge and skills required for Nurses & relevant allied healthcare workers to safely assess the need for and perform this procedure in a variety of settings. It is particularly relevant to Practice Nurses, Emergency Nurses, Community, Regional, Rural & Remote Nurses, and Indigenous Health Care Workers.

Pre requisites (Minimum requirement):

Registered Nurses (Division 1), Enrolled Nurses (Division 2) and Indigenous Health Care Workers with relevant clinical experience.

Aims of the Course:

This course aims to provide participants with the required theory and knowledge for undertaking wound closure by basic suturing and wound closure techniques. Participants will be provided with a pre course learning package prior to the course study day, where they undertake the theoretical component, and complete an examination comprising of multiple choice and short answer questions prior to the study day workshop. During the course study day students participate in further theoretical lectures, demonstrations, simulated wound closure, practical techniques and simulated assessment tasks.

Finally, the participant's complete supervised practice in the clinical environment by a nominated mentor completing five supervised procedures. Participants are deemed competent to suture a variety of wounds independently once this final task has been signed off by the supervising mentor and completed forms returned.

Course Delivery:

Total Hours of Learning - approx. 30 hours.

Hours include self directed learning and two (2) days of delivery including lecture, demonstration and practical workshop sessions prior to assessment taking place.
