# PROGRAM SNAPSHOT

Program Title	Audiometry Screening and Assessment Program
Program Summary	<p>The Audiometry Screening and Assessment Program (ASAP) is designed to develop the knowledge and skills required to safely assess and screen the aural health of individuals and groups.</p> <p>The fundamental goal of ear health and audiometry screening programs in children is to identify children most likely to have hearing loss that can affect their communication, their development, general health and ability to effectively manage education.</p>
Units of Competency	Incorporating Accredited Units of Competency EHHAEH001 and HLTAUD002.
Cost	\$1,295.00 (Inc. GST) per student
Student Numbers	Groups are capped at 10 students to promote an optimal learning environment.
Delivery & Assessment	Three (3) day face-to-face workshop, in-class activities assessed by facilitator, mandatory third party observed workplace activity and online assessment completed via accessIQ.
Estimated Hours of Study	60 hours of active learning.
CPD Hours	<p>As a general guide, one (1) hour of active learning equates to one (1) hour of CPD. It is the responsibility of the individual student to calculate how many hours of active learning have been completed. The hours of active learning estimated above should act as a guide to CPD hours.</p> <p>The course is available to Aboriginal and/or Torres Strait Islander Health Workers or Health Practitioners, Registered Nurses, Enrolled Nurses, General Practitioners, General Practice Registrars, Audiometrists, Audiologists or others on application.</p>
Pre-requisites	
Terms and Conditions	Visit <a href="http://benchmarkgroup.com.au/terms-and-conditions">benchmarkgroup.com.au/terms-and-conditions</a>

## PROGRAM OUTLINE:

The Audiometry Screening and Assessment Program is a three (3) day program and includes lecture and practical workshop activities, involving performing a comprehensive ear examination, performing otoscopy, tympanometry, and audiometry. These activities provide students with the skills to support an increase in the identification of clients in need of further investigation and an increase in the quality of the referral process.

# PROGRAM INFORMATION

## PROGRAM OUTCOME:

Upon the successful completion of the Audiometry Screening and Assessment Program, students should have the ability to:

- Demonstrate a comprehensive knowledge and understanding of the anatomy and physiology of the auditory system
- Perform a comprehensive ear health examination
- Identify contraindications to proceed with hearing assessment
- Perform otoscopy
- Perform tympanometry
- Perform audiometry
- Accurately identify a range of conditions of the auditory system
- Apply a broad knowledge of management strategies to manage a range of middle ear conditions
- Provide client-centred education to support health promotion
- Provide basic care and advice in relation to audiometry screening
- Document the examination findings, procedure and outcome in the client's history
- Outline any follow-up required and make appropriate specialist referrals as needed.

## PROGRAM STRUCTURE:

Course delivery and assessment for the Audiometry Screening and Assessment Program includes:

- Three (3) day face-to-face workshop
- In-class activities assessed by facilitator
- Mandatory third party observed workplace activity
- Online assessment completed via accessIQ.

To achieve competency in the Audiometry Screening and Assessment Program, students must demonstrate competency through realistic skills simulations, competently complete a theory assessment covering essential knowledge and skills, and complete workplace activity.

The observed workplace activity is a mandatory requirement for this course. Workplace practice must be observed by a peer or suitably qualified clinician. Students are required to complete twenty (20) audiometry assessments in the workplace under supervision. All workplace activities must be completed in accordance with work health and safety standards and all other relevant workplace policies and procedures.

There is no pre-reading and all course materials are supplied. The online assessment activities do not need to be completed until after attendance at the three (3) day face-to-face workshop.

### About The Benchmarque Group

The Benchmarque Group is a Registered Training Organisation (RTO) delivering a range of clinical skills courses and programs to meet the needs of a broad range of health professionals across Australia.

As an RTO working in the health sector, our focus is on the delivery of courses and programs designed to provide healthcare professionals with the opportunity to expand their skills and careers. We concentrate on skills and knowledge that can be immediately implemented in a vocational context.

Skills learnt today can be used tomorrow.
