excellence in education

The upcoming **Course in Tympanometry** is designed to provide skills and knowledge for a range of health professionals and others working within Aboriginal and/or Torres Strait Islander health to undertake tympanometric screening and tympanometry. The course is supported by funding from the Australian Government Department of Health under the Ear and Hearing Health Assessment Project.

At the successful completion of this program the student should:

- have knowledge and understanding of the anatomy and physiology of the ear
- be able to perform a tympanometric screening
- understand the results
- recognise abnormalities
- recognise the need to refer to medical staff or specialist
- give the patient a comprehensive explanation of the examination findings
- document the examination findings and outcome in the patient's history.
