Program outline

The Foundations of Immunisation Practice Program aims to provide students with the skills and knowledge required to work within the framework of immunisation and public health, with a focus on an understanding of the immune system, how vaccines work, communicable disease management and assessing a client's eligibility for vaccinations.

This program is the first level in the Immunisation Clinical Pathway. Once this program has been completed, students can then continue on with the Course in Immunisation Practice in Primary Healthcare (10754NAT) which covers the following specialist topics:

- Immunisation Needs in Adult and Older Persons
- Immunisation Needs for Influenza
- Immunisation Needs in Pregnancy
- School Age Immunisation
- Practice of Immunisation.

Program outcome

Upon successful completion of the program students should have:

- An understanding of the impact of immunisation programs as a public health measure
- Knowledge of the immune response and how vaccines work
- Knowledge of the key features of vaccine preventable diseases
- Knowledge of the various vaccine types and their components
- Knowledge of legal and ethical considerations for immunisation practice
- Knowledge of the risks and benefits of vaccination and utilises relevant information resources.

Program content

The Foundations of Immunisation Practice Program is fully online consisting of blended learning, including knowledge information, articles, learning videos and self reflection activities.

Program structure

The Foundations of Immunisation Practice Program is a non-accredited online-only program. There are no formal assessment requirements.

Program entry requirements

Entrants to the Foundations of Immunisation Practice Program must provide evidence of a relevant professional role and hold one of the following:

- AHPRA registered nursing profession
- Medical practitioner qualification.

Relevant roles would include:

- Registered and Enrolled Nurses
- General practitioners
- Others on application.

Entrants should have:

- A minimum of three months employment or experience working with clients in a clinical environment
- High language, literacy and numeracy levels – sufficient to interpret medical documents/referrals/requests and write medical notes and reports and communicate effectively with clients and public.

About accessIQ

The Benchmark Group uses accessIQ, a bespoke online course and assessment platform providing an easy online learning solution for our students.

- Edit saved answers, review before submitting
- Study anywhere, anytime
- Live student console – tracks assessment, enrolments and waitlists
- Access statement of results and resource library.

About The Benchmark Group

The Benchmark Group (RTO 21824) is a Registered Training Organisation delivering a range of clinical skills courses and programs to meet the needs of a broad range of health professionals across Australia.

As an RTO working in the health sector, our focus is on the delivery of courses and programs designed to provide healthcare professionals with the opportunity to expand their skills and careers. We concentrate on skills and knowledge that can be immediately implemented in a vocational context.

Skills learnt today can be used tomorrow.
