Course snapshot

COURSE TITLE	10754NAT Course in Immunisation Practice in Primary Healthcare
COURSE SUMMARY	Designed to provide students (clinicians) with the specific knowledge and skills that will enable them to perform a range of comprehensive immunisation services and remain up-to-date with current programs, changes, and requirements relevant to their scope of practice.
UNITS OF COMPETENCY	IPPSCI001 Source and communicate immunisation information in primary healthcare, IPPISP002 Implement systems and processes to deliver immunisation services, IPPPPV003 Plan and perform vaccination, IPPINP004 Determine and communicate immunisation needs for women in pregnancy, IPPDIV005 Determine and communicate immunisation needs for Influenza vaccination, IPPIAO006 Determine and communicate immunisation needs for adult and older persons, IPPSIP007 Determine and communicate immunisation needs for school immunisation programs, IPPCCU008 Coordinate immunisation Catch-Up programs
COST	The special price of \$442 (Inc. GST) is calculated at check-out and is applied when the complete pathway (6 programs) is purchased. \$520 (Inc. GST) is total price when each individual program is purchased separately.
PRE-READING	There is no pre-reading for this course.
DELIVERY & ASSESSMENT	Completing all six programs in the Immunisation Learning Pathway means you will have achieved the Course in Immunisation Practice in Primary Healthcare. Delivery and assessment includes online learning submitted via accessIQ, a half day face-to-face workshop, in-class activities assessed by a qualified assessor.
ESTIMATED HOURS OF STUDY	110 hours of active learning
CPD HOURS	As a general guide, one hour of active learning equates to one hour of CPD. It is the responsibility of the individual student to calculate how many hours of active learning have been completed. The hours of active learning estimated above should act as a guide to CPD hours.
ENTRY REQUIREMENTS	To view entry requirements please refer to the next page.
HOW TO APPLY	To apply, click the 'apply now' button on the website which will take you to the learning pathway purchase page in accessIQ. From here you can apply and purchase one (or more) at a time. Successfully completing all programs in the pathway means you will have achieved this qualification.
TERMS AND CONDITIONS AND STUDENT HANDBOOK	View terms and conditions visit benchmarkgroup.com.au/terms-and-conditions View Student Handbook click here

Course content

The Course in Immunisation Practice in Primary Healthcare consists of six individual programs that make up the Immunisation learning pathway. The programs include:

- Foundations of Immunisation Practice
- Immunisation Needs in Adult and Older Persons
- Immunisation Needs for Influenza
- Immunisation Needs in Pregnancy
- School Age Immunisation
- Practice of Immunisation.

Course outcome

On the successful completion of the Course in Immunisation Practice in Primary Healthcare, students should have the ability to:

- Demonstrate an understanding of the National Immunisation Program (NIP) Schedule
- Implement effective Cold Chain Management
- Develop and implement a Catchup schedule.

Course structure

Completing all six programs in the Immunisation Learning Pathway means you will have achieved the Course in Immunisation Practice in Primary Healthcare.

Course delivery and assessment includes online learning completed via accessIQ, a half-day face-to-face workshop, in-class activities assessed by a qualified assessor and a mandatory third party observed workplace activity.

There is no pre-reading and all course materials are supplied.

To achieve competency students must demonstrate successful completion of::

- Practical simulations and oral questioning
- Written questions covering essential knowledge and skills
- Workplace observed practice.

Workplace observed practice is a mandatory requirement for this course, work place practice must be observed by a peer or suitably qualified clinician. All assessments must be completed in accordance with work health and safety standards and infection control

policies and procedure.

All workplace observed activities must be completed in accordance with workplace policies and procedures of the facility where the activity is being conducted.

Course entry requirements

Entrants to the Practice of Immunisation Program must provide evidence of a relevant professional role and hold one of the following:

- AHPRA registered nursing qualification
- Medical practitioner qualification.

Relevant roles would include:

- Registered and Enrolled Nurses
- General practitioners
- Others on application.

Entrants should have:

- A minimum of three months employment or experience working with clients in a clinical environment.
- High language, literacy and numeracy levels – sufficient to interpret medical documents/referrals/ requests and write medical notes and reports and communicate effectively with clients and public.

About accessIQ

The Benchmark Group uses accessIQ, a bespoke online course and assessment platform providing an easy online learning solution for our students.

- Edit saved answers, review before submitting
- Study anywhere, anytime
- Live student console – tracks assessment, enrolments and waitlists
- Access statement of results and resource library.

Immunisation learning pathway

Learning pathways is a new approach where we are giving the control of your learning journey back to you, the student.

The underlying rationale recognises that students are better able to learn when they can control the flow of their experience, or when their learning is self-directed.

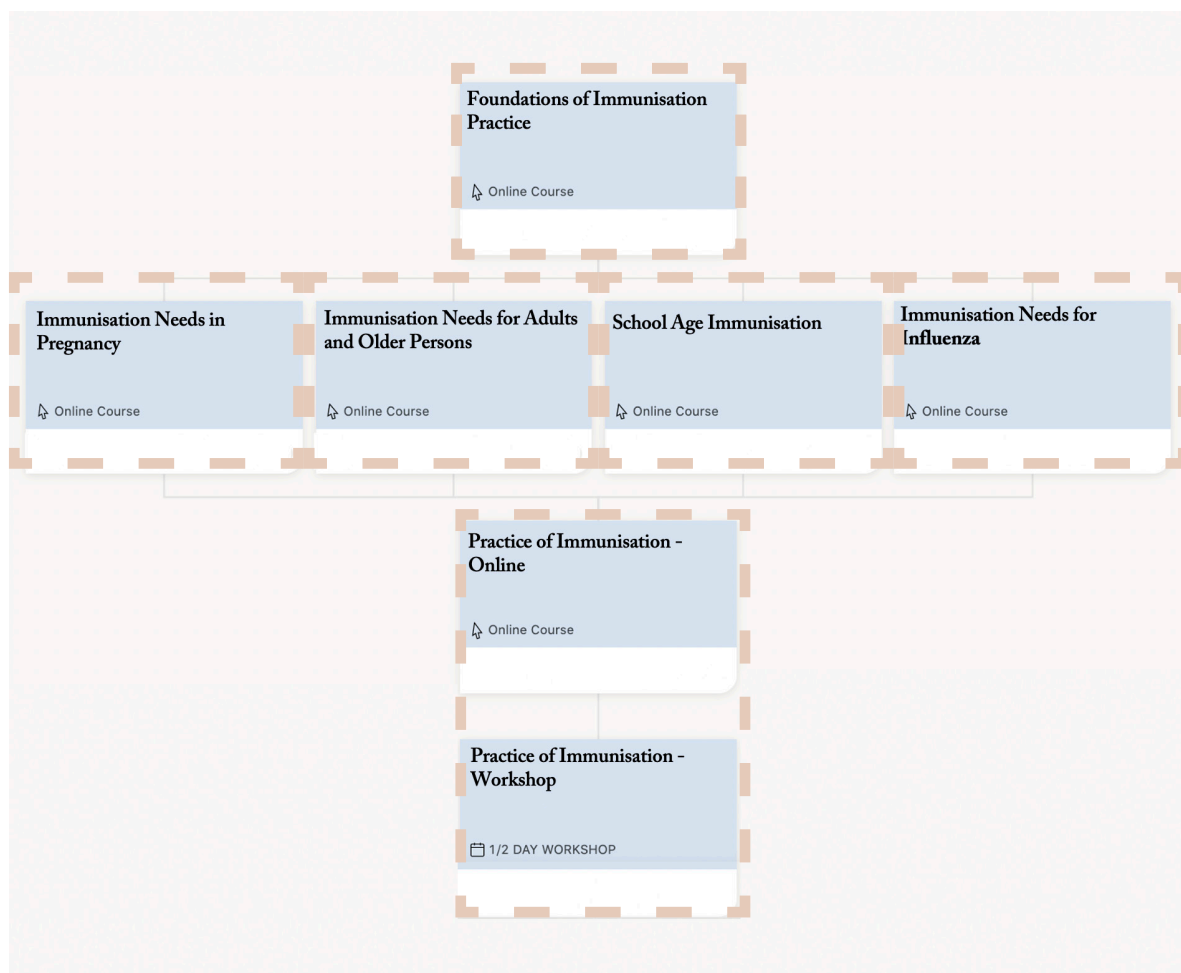

A self-directed model of delivery allows access to a broader range of students regardless of geographic location and allows people to complete the program at a pace that suits their current lifestyle and workplace balance.

How it works

The pathway starts by building your base knowledge with the online program, Foundations of Immunisation Practice. You can then continue on with 4 online specialty programs - options include pregnancy, influenza, adult and older persons and school age immunisation. Following on from this is Practice of Immunisation, consisting of further learning, a face-to-face workshop in partnership with PHNs and workplace activities.

Successfully completing the pathway means you will have achieved the nationally accredited Course in Immunisation Practice in Primary Healthcare (10754NAT).

You can choose to purchase the pathway all at once or pay and complete one learning at a time – the choice is now yours! In fact, once you have completed your enrolment, you can even choose when to activate your assessment.

About The Benchmark Group

The Benchmark Group (RTO 21824) is a Registered Training Organisation delivering a range of clinical skills courses and programs to meet the needs of a broad range of health professionals across Australia.

As an RTO working in the health sector, our focus is on the delivery of courses and programs designed to provide healthcare professionals with the opportunity to expand their skills and careers. We concentrate on skills and knowledge that can be immediately implemented in a vocational context.

Skills learnt today can be used tomorrow.
