TERMS AND CONDITIONS AND STUDENT HANDBOOK	<p>View terms and conditions visit benchmarkgroup.com.au/terms-and-conditions</p> <p>View Student Handbook</p>

Program outline

The program aims to provide participants with the skills and knowledge required to support vaccination recommendations, for influenza vaccine with a focus on understanding the unique immunisation requirements for influenza vaccine and completing relevant processes to support vaccination.

Program outcome

Upon successful completion of the program students should have the ability to:

- Source evidence-based resources available for health providers and clients on influenza vaccination
- Identify eligible clients for influenza vaccination in accordance with national guidelines and organisation's processes
- Provide information on influenza vaccine recommendations to clients within scope of own job role.

Program content

The Immunisation Support for Influenza Program is fully online consisting of blended learning which includes knowledge information, articles, learning videos and self reflection activities.

Program entry requirements

Entrants to the Immunisation Support for Influenza Program must provide evidence of a relevant professional role. Relevant roles would include:

- Medical receptionist
- Practice assistant
- Non-clinical Aboriginal and/or Torres Strait Islander Health Workers
- Practice manager.

Entrants should have:

- A minimum of three months employment or experience working with clients in primary health care

- Language, literacy and numeracy levels sufficient to interpret basic medical parameters, respond to requests from health professionals and communicate effectively with clients and public.

Benchmark Group Specific Requirements

Students must complete the Foundations of Immunisation Program prior to entry to this program.

Program structure

To achieve competency students must demonstrate successful completion of:

- Written assessment covering essential knowledge and skills
- Workplace observed practice.

All assessments must be completed in accordance with health and safety standards and infection control policies and procedures.

Workplace observed practice is a mandatory requirement for this course, workplace practice must be observed by a medical practitioner, practice manager or practice nurse that performs the identified workplace tasks as part of their role.

All workplace observed activities must be completed in accordance with workplace policies and procedures of the facility where the activity is being conducted.

About accessIQ

The Benchmark Group uses accessIQ, a bespoke online course and assessment platform providing an easy online learning solution for our students.

- Edit saved answers, review before submitting
- Study anywhere, anytime
- Live student console – tracks assessment, enrolments and waitlists
- Access statement of results and resource library.

Immunisation Support learning pathway

Learning pathways is a new approach where we are giving the control of your learning journey back to you, the student.

The underlying rationale recognises that students are better able to learn when they can control the flow of their experience, or when their learning is self-directed.

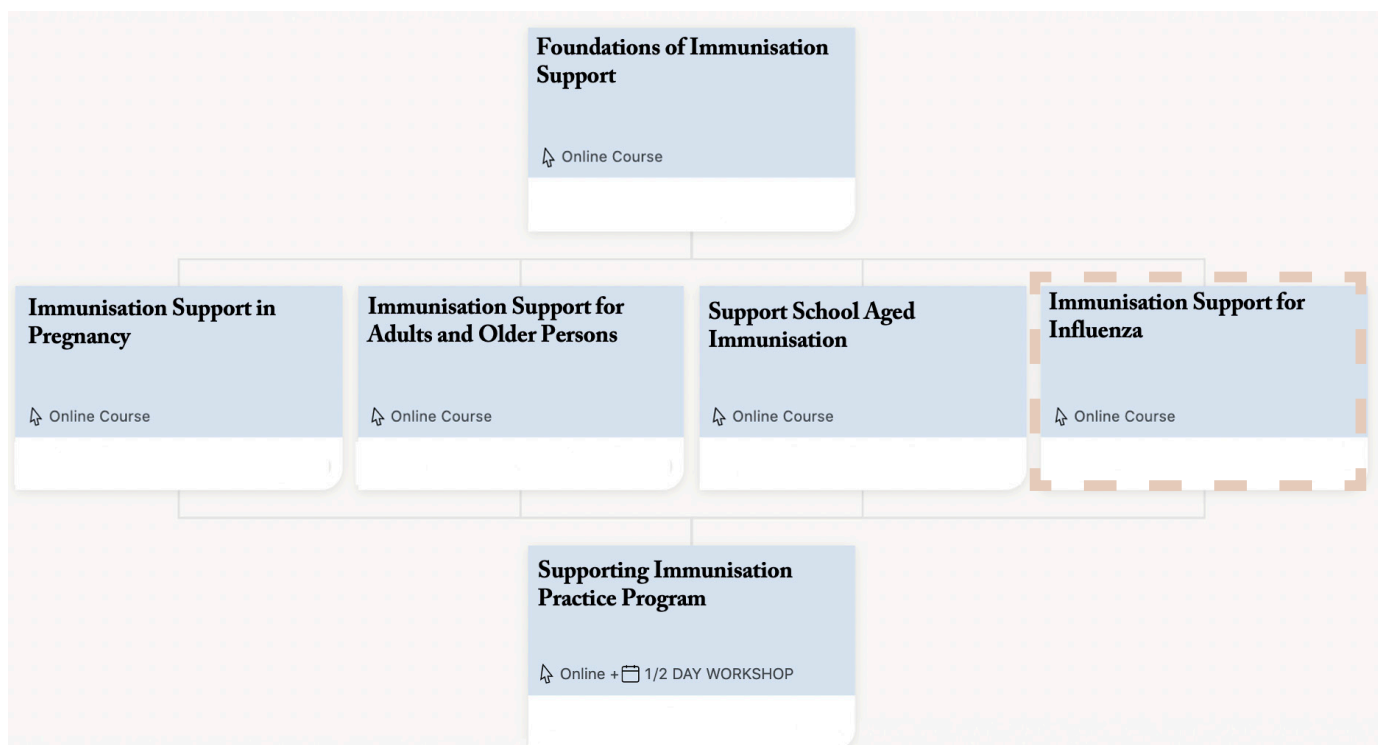

A self-directed model of delivery allows access to a broader range of students regardless of geographic location and allows people to complete the program at a pace that suits their current lifestyle and workplace balance.

How it works

The pathway starts by building your base knowledge with the online program, Foundations of Immunisation Support. You can then continue on with 4 online specialty programs - options include immunisation support in pregnancy, adults and older persons and school aged clients. Following on from this is Supporting Immunisation Practice, consisting of further learning, a face-to-face workshop in partnership with PHNs and workplace activities.

Successfully completing the pathway means you will have achieved the nationally accredited Course in Immunisation Support in Primary Healthcare (10764NAT).

You can choose to purchase the pathway all at once or pay and complete one learning at a time – the choice is now yours! In fact, once you have completed your enrolment, you can even choose when to activate your assessment.

About The Benchmark Group

The Benchmark Group (RTO 21824) is a Registered Training Organisation delivering a range of clinical skills courses and programs to meet the needs of a broad range of health professionals across Australia.

As an RTO working in the health sector, our focus is on the delivery of courses and programs designed to provide healthcare professionals with the opportunity to expand their skills and careers. We concentrate on skills and knowledge that can be immediately implemented in a vocational context.

Skills learnt today can be used tomorrow.
