Program snapshot

PROGRAM TITLE	Splinting, Immobilisation and Fracture Management
PROGRAM SUMMARY	The Splinting, Immobilisation and Fracture Management program is designed to provide students with practical skills to manage a range of commonly presented injuries in the Primary Healthcare setting. The program focusses on hands on skills and delivers an interactive and engaging workshop as students learn a broad variety of injury management skills.
UNITS OF COMPETENCY	Non-accredited
COST	\$375.00 (Inc. GST) per student
PRE-READING	There is no pre-reading for this program.
DELIVERY & ASSESSMENT	Delivery includes a one day face-to-face workshop, in-class activities assessed by a qualified assessor and an online assessment completed via accessIQ.
ESTIMATED HOURS OF STUDY	10 hours of active learning
CPD HOURS	As a general guide, one hour of active learning equates to one hour of CPD. It is the responsibility of the individual student to calculate how many hours of active learning have been completed. The hours of active learning estimated above should act as a guide to CPD hours.
ENTRY REQUIREMENTS	To view entry requirements please refer to the next page.

Program outline

The ability to properly manage patient injuries, apply immobilisation or splinting and fit a range of slings casts is a technical skill easily mastered with practice and an understanding of basic principles.

The Splinting, Immobilisation and Fracture Management program is focused on practical skills to enable students to confidently and safely manage a range of common presentation injuries and apply appropriate treatments in the management of musculoskeletal disorders, injury or for immobilisation due to other medical conditions.

The program is evidence based and the techniques taught are designed to promote the best practice outcomes for patient safety and care.

Program outcome

Upon successful completion of the program, students should have the practical skills and knowledge to enable them to manage a range of injuries. Practical skills and demonstrations will include:

- Bandaging
- Scaphoid injury management
- Neurovascular and vascular review using doppler
- Head, neck, and cervical immobilisation
- Arm, shoulder, and clavicle immobiliser sling systems
- Upper limb management including circumferential casting, thermoplastic splinting and polymer foam splinting
- Hip fractures, stabilisation, and management
- Lower limb management including ortho glass polyurethane coated splinting, air and delta express speed splinting systems to lower limbs
- Use of walking aids, daily living aids and mobility aids

Program content

Students will gain the practical skills and knowledge to understand:

- Principles of bone growth and development
- Foundations of Musculoskeletal anatomy
- Principles of fracture management and bone healing in adults and children

- X-Ray interpretation and fracture classification
- Patient clinical assessment, pathology interpretation and management
- Soft tissue injury management
- Pain management
- Non-operative (conservative) Vs Operative clinical management pathway
- Limb and Joint realignment, immobilisation, splinting and strapping
- Medical billing and item numbers

Program structure

To achieve competency students must demonstrate successful completion of:

- Written assessment covering essential knowledge and skills
- Realistic skills simulations and scenarios in the classroom

Workplace observed practice is a mandatory requirement for this course, workplace practice must be observed by a medical practitioner, practice manager or practice nurse that performs the identified workplace tasks as part of their role.

All workplace activities must be completed in accordance with work health and safety.

Program entry requirements

Entrants to the Splinting, Immobilisation and Fracture Management program must provide evidence of a relevant professional role. Relevant roles would include:

- Registered Nurses
- Enrolled Nurses
- Allied Health Workers
- Aboriginal and Torres Strait Islander Health Workers and Practitioners
- General practitioners
- General Practice Registrars
- Others on application

About The Benchmark Group

The Benchmark Group (RTO 21824) is a Registered Training Organisation delivering a range of clinical skills courses and programs to meet the needs of a broad range of health professionals across Australia.

As an RTO working in the health sector, our focus is on the delivery of courses and programs designed to provide healthcare professionals with the opportunity to expand their skills and careers. We concentrate on skills and knowledge that can be immediately implemented in a vocational context.

Skills learnt today can be used tomorrow.
