Program snapshot

PROGRAM TITLE	Triage for Primary Healthcare Professionals
PROGRAM SUMMARY	<p>This online course is tailored to Registered and Enrolled Nurses working in General Practice. It's main aim is to equip you with the knowledge and skills to triage patients referred to you by Reception Staff, or patients who deteriorate in your presence.</p> <p>You will gain the confidence to safely and effectively triage patients in the telehealth sphere and in face-to-face interactions.</p> <p>This is an interactive course that invites you to use all your senses in the learning process.</p>
UNITS OF COMPETENCY	Non-accredited
COST	\$50 (Inc. GST)
PRE-READING	There is no pre-reading for this program.
DELIVERY & ASSESSMENT	Online assessment completed via accessIQ.
ESTIMATED HOURS OF STUDY	3 hours of active learning
CPD HOURS	As a general guide, one (1) hour of active learning equates to one (1) hour of CPD. It is the responsibility of the individual student to calculate how many hours of active learning have been completed. The hours of active learning estimated above should act as a guide to CPD hours.
ENTRY REQUIREMENTS	To view entry requirements please refer to the next page.
HOW TO APPLY	To apply, click the 'apply now' button on the website which will take you to the learning pathway purchase page in accessIQ. From here you will be able to choose one or more (or all!) programs from the pathway to purchase.
TERMS AND CONDITIONS AND STUDENT HANDBOOK	<p>View terms and conditions visit benchmarkgroup.com.au/terms-and-conditions</p> <p>View Student Handbook</p>

Program outline

What is Triage? The dictionary definition of triage in healthcare is: “The principle or practice of sorting emergency patients into categories of priority for treatment.”

Triaging is essential when you may be dealing with hundreds of patients a day, all with different needs, requests and health backgrounds.

In this program students will be equipped with the skills to safely triage patients to ensure those with the more urgent medical conditions are seen first. Students will be able to utilise the convenience of the online only program to complete study in your own time, and learn the processes for effectively triaging patients both via telehealth or face to face

Program outcome

Upon successful completion of the program students should have the ability to:

- Understand triage in the context of Primary Healthcare
- Compare and contrast telehealth triage and face-to-face triage
- Be aware of safety and medico-legal considerations with respect to triage
- Identify techniques best employed for effective verbal communication during telephone triage
- Outline an appropriate process for telephone triage in general practice that follows safe and effective principles
- Explain the best method used in communicating with agitated or anxious patients, parents or carers.

Program content

Content for the Triage for Primary Healthcare Professionals program includes:

- Introduction to Triage
- Types of Triage
- Processes for Telephone Triage
- Processes for Face-to-Face Triage

Program entry requirements

Entrants to the Triage for Primary Healthcare Professionals program must provide evidence of a relevant professional role. Relevant roles would include:

- Registered Nurses
- Enrolled Nurses
- Allied Health Professionals
- Aboriginal and/or Torres Strait Islander Health Workers
- Aboriginal and/or Torres Strait Islander Health Practitioners
- General Practitioners
- General Practice Registrars
- Others on application.

About accessIQ
