excellence in education

The upcoming Course in Tympanometry is designed to provide skills and knowledge for a range of health professionals and others working within Aboriginal and/or Torres Strait Islander health to undertake tympanometric screening and tympanometry.

At the successful completion of this program the student should:

- have knowledge and understanding of the anatomy and physiology of the ear
- be able to perform a tympanometric screening
- understand the results
- recognise abnormalities
- recognise the need to refer to medical staff or specialist
- give the patient a comprehensive explanation of the examination findings
- document the examination findings and outcome in the patient's history.
