Program outline

The Wound Management: Foundations and Principles program enables healthcare professionals to develop foundational knowledge and skills required to assess, manage and prevent wounds in primary healthcare.

The program provides management strategies and an understanding of referral pathways for specialist care in relation to a range of conditions.

Program outcome

On the successful completion of the program, students should have the ability to:

- assess, manage and apply a variety of wound management techniques to a broad range of clients in the primary health care setting
- demonstrate knowledge of a variety of wound management products and materials and the techniques to apply the appropriate product
- apply a broad knowledge of management strategies, client centred education and provision of basic care and advice in relation to wound management
- assess the need for and perform wound management in a variety of settings, as well as educating and assisting in the management of clients.

Program content

Content for the Wound Management: Foundations and Principles program includes:

- Principles of wound management
- Structure of the skin
- Wound assessment
- Implementing wound care strategies
- Evaluation of wound healing.

Program structure

Wound Management: Foundations and Principles is an online-only program delivered via accessIQ.

To achieve competency in this course, students must complete an assessment via accessIQ, which covers essential knowledge and skills. The assessment includes a series of case studies.

Workplace observed practice is a mandatory requirement for this course, workplace practice must be observed by a peer or suitably qualified clinician.

All workplace observed activities must be completed in accordance with work health and safety standards and infection control policies and procedure.

All workplace observed activities must be completed in accordance with workplace policies and procedures of the facility where the activity is being conducted.

Program entry requirements

Entrants to the Wound Management: Foundation and Principles program must provide evidence of a relevant professional role. Relevant roles would include:

- Registered Nurses
- Enrolled Nurses
- Allied Health Workers
- Aboriginal and Torres Strait Islander Health Workers and Practitioners
- General Practitioners
- General Practice Registrars
- Others on application.

About accessIQ
