

Perform Venous Blood Collection

COURSE INFORMATION

Course snapshot

COURSE TITLE	<u>Perform Venous Blood Collection</u>
VALUE FOR ORGANISATIONS	Develop the technique to safely collect blood from patients and learn the importance of correctly collecting patient data relevant for clinical documentation. Understand blood collection and how to choose the appropriate equipment with practical demonstration, and discussions around managing possible complications.
UNITS OF COMPETENCY	HLTPAT002 Perform venous blood collections
COST	\$400 (Inc. GST) per student
DELIVERY	Online theory and assessment delivered via accessIQ Half day face-to-face workshop (approx. 3 hours) In-class activities assessed by a qualified assessor Mandatory third party observed workplace activity
ESTIMATED HOURS OF STUDY	40 hours of active learning.
CPD HOURS	As a general guide, one (1) hour of active learning equates to one (1) hour of CPD. It is the responsibility of the individual student to calculate how many hours of active learning have been completed. The hours of active learning estimated above should act as a guide to CPD hours.
ENTRY REQUIREMENTS	This course is open to any individual for whom blood collection is part of the job role, including individuals working in collection centres, hospitals, clinical researchers or other health care environments and is within their scope of practice.
TERMS AND CONDITIONS	<u>Visit benchmarkgroup.com.au/terms-and-conditions</u> <u>View Student Handbook</u>

Course summary

The Perform Blood Collection Course (HLTPAT002) is evidence-based and focuses on teaching best practices for both patient care and clinician safety. This course equips students with the essential knowledge and skills to confirm collection requirements, prepare the client and equipment, and perform routine blood collections in a clinical setting.

Your assessment journey includes theoretical content, diverse assessment questions—ranging from multiple choice to interactive questions and answers—and a practical workplace activity involving the completion of blood collection procedures. **There is a mandatory requirement to complete a minimum of 15 different successful blood draws in your workplace or at a facility with which you have a mentoring arrangement.**

Assessment

As part of your studies in this unit of competency, you are required to:

- Perform the activities outlined in the performance criteria of this unit during a period of at least 35 hours of pathology collection work under the supervision of a person currently working in a phlebotomist role for at least 18 hours per fortnight.
- Follow established technical, infection control and safety procedures and collected blood suitable for testing using venous blood collection with a maximum of two attempts from at least 15 different people comprising adults of varied ages.
- Use the following methods of collection:
 - evacuated system (at least 10 times)
 - winged infusion sets and/or needle and syringe as per organisation policy and procedure.

This means you will complete 15 different successful blood draw in your workplace or at a facility you have a mentoring arrangement with.

Workplace-observed practice is mandatory. All workplace activities must be completed in accordance with work health and safety standards and all other relevant workplace policies and procedures.

Learning outcomes

- Choose appropriate equipment for blood collection
- Discuss the factors that influence the correct selection of blood collection equipment
- Discuss and manage possible complications
- Identify and obtain clinical and relevant personal data for blood collection
- Perform blood collections
- Perform post-blood collection procedures including client care, documentation and follow up.

Course content

- The Circulatory System
- Veins and Valves
- Vessels of the Arms and Hand
- Assessing Veins
- Practical Activity: Vein Assessment
- Equipment for Blood Collection
- Collection Tubes
- Collecting Blood Samples
- Complications

About accessIQ

We are paving the way for innovative and easy online learning through our bespoke online course and assessment platform, accessIQ.
