COURSE INFORMATION

## Course snapshot

<b>COURSE TITLE</b>	<b>GP Urgent Care</b>
<b>COURSE SUMMARY</b>	<p>This 2 day workshop aims to bridge the gap between primary care and the emergency department. GPs will further develop their knowledge and skills using practical tools they can implement in their workplace.</p> <p>The workshop is designed to be highly practical, with a strong focus on hands-on learning through simulated scenarios, case studies, and interactive skills sessions. This approach helps participants build confidence and competence in managing real-life urgent care situations.</p>
<b>VALUE FOR ORGANISATIONS</b>	<p>Urgent care training is crucial for a variety of staff working within the urgent care sector as it enables them to respond quickly and effectively to emergencies, such as cardiac arrest, severe allergic reactions, traumatic injuries, and respiratory distress, which can be life-saving and reduce the risk of complications.</p>
<b>UNITS OF COMPETENCY</b>	RACGP CPD Activity ID 844777
<b>COST</b>	Group Bookings ONLY \$17,700 (Inc.GST)
<b>DELIVERY &amp; ASSESSMENT</b>	<p>This course is delivered as a 2-day in person practical workshop with a strong focus on hands-on learning through simulated scenarios, case studies, and interactive skills sessions.</p>
<b>ESTIMATED HOURS OF STUDY</b>	16 hours of active learning.
<b>CPD HOURS</b>	<p>As a general guide, one (1) hour of active learning equates to one (1) hour of CPD. It is the responsibility of the individual student to calculate how many hours of active learning have been completed. The hours of active learning estimated above should act as a guide to CPD hours.</p>

## Course content

In this two-day workshop, GPs will refresh and build skills in a range of areas important to the Urgent Care space. Topics include:

- Clinical Assessment in Urgent Care
- Burns Management
- ECG Interpretation
- Suturing and Wound Closure
- Splinting and Immobilisation
- Cannulation

## Learning outcomes

The workshop will deliver a range of learning outcomes aligned to the RACGP accreditation framework including:

- Consolidation of knowledge for the participants and practical application of Basic and Intermediate Life Support, and ECG Interpretation in a classroom setting.
- Establishing the need for Suturing, Plastering, or IV cannulation and assessing the client's physical and pathophysiological status.
- Classifying and preparing equipment for Suturing, Plastering, and IV cannulation.
- Performing Suturing, Plastering, and IV cannulation in a simulated environment if deemed appropriate and safe.
- Providing relevant and appropriate post-procedure care.

## Assessments

Over the 2-days of training, students will be guided and observed by expert trainers with experience in emergency care.

Comprehensive skills and scenario based training ensures effective triage and decision-making on how to assess the severity of conditions and prioritise care, ensuring that resources are used efficiently and patients receive timely attention.
